

# CleanMax>Solutions

## CERTIFICATE OF DISINFECTION

The above listed, has invested into keeping you, customers, patrons, family members and employees using this facility/location safe using the latest technology in disinfecting and sanitizing. CleanMax>Solutions has recently treated this location with an EPA registered safe disinfectant that eliminates 99.999% of airborne and surface bacteria, viruses and pathogens (including COVID-19 and over 30 other serious disease-causing viruses) using our Electrostatic Spraying and/or ULV Fogging Treatment solutions at this location.

While there is no cure for COVID-19, as per the CDC and EPA recommendations, the best defense is to disinfect, sanitize your location and use our solutions on a regular basis. The sanitizing products we use are EPA approved, safe and poses no risk to humans, animals or the environment. And so far, there is no known pathogen that has developed a resistance against it.
